

## FIRE DANGER ON THE RISE

Current fire danger has prompted the Coos Forest Protective Association to impose tighter restrictions for workers in some wildland areas. The CFPA will place an Industrial Fire Precaution Level (IFPL) III (3) on all private, county, state and Bureau of Land Management lands that fall within regulated use zones CS-5 and SK-2 Tuesday, August 18. IFPL II (2) will take effect in zone CS-4. Industrial operators are advised to check their notifications for the area in which they are working. Under IFPL III, industrial operators are prohibited in performing the following:

\*Cable yarding – except that gravity operated logging systems with non-motorized carriages may operate before 1:00 p.m. and after 8:00 p.m. when all blocks and moving lines are suspended 10 feet above ground, except the line between the carriage and the chokers;

\*Power saws – except at loading sites and at tractor skidder operations before 1 p.m. and after 8 p.m. local time;

In addition, the following are permitted before 1 p.m. and after 8 p.m.; \*Tractor, skidder, feller-buncher, forwarder, or shovel logging operations where tractors, skidders, or other equipment with a blade capable of constructing fireline are immediately available to quickly reach and effectively attack a fire start; \*Mechanized loading or hauling of any product or material; \*Blasting; \*Welding or cutting of metal; \*Any other spark emitting operation not specifically mentioned.

For further information on fire danger levels and closures, contact the CFPA 24-hour closure information line at 267-1789 or access CFPA's website at www.coosfpa.net.
