

IN MY EXPERIENCE

by Val Don Hickerson, Bandon, Oregon

This is the latest in a series of fact based articles on global over-population. Immigration, both legal and illegal, and their offspring cause over 80% of population growth in the United States.

On March 23, 2005, President Bush met with Mexican President Vicente Fox and Canadian Prime Minister Paul Martin in Waco, Texas where they launched the "Security and Prosperity Partnership of North America" (SPP). An agreement whose alleged public purpose is to promote and expand prosperity and security among the three nations. The plan was confirmed by a report from the Council on Foreign Relations (CFR) released the following May.

Although sounding good on the surface, the real purpose of the SPP is to ultimately create a

North American Union (NAU) similar to the European Union. Completion year is 2010 and it's without the consent of the American people or Congress?

Think of what this plan would mean for the United States.

* We would lose our sovereignty, our liberty, and most of our Constitution.

* We would lose our borders and immigration laws.

* With over 100 million of us speaking Spanish and those in Quebec speaking French we would lose English as our country's language.

* Say goodbye to Old Glory as you recite "I pledge allegiance to the flag of the North American Union."

* Our currency would be replaced. Instead of dollars and pe-

nos we would use an "Amero".

* Say goodbye to the "middle class" as the country is reduced to the lowest common denominator by the poverty and illiteracy that exists in Mexico and the socialism in Canada.

* Look for the crime that is now occurring in our country from the estimated 30 million illegals already here to skyrocket.

* Different nationalities have different values. Our values diminish as others overrun us. The ten years I spent in Tucson, AZ taught me that most Mexicans are paternalistic. They often view their wives as property and give them little space for self-determination. Their culture is different from ours in other ways as is that of other countries that sneak in to the U.S. illegally. They want to retain their own culture rather than assimilate into ours.

* What about the devastation that will occur to our environment? Some areas of the U.S. are already experiencing water shortages as overpopulation overwhelms it.

President Obama met in Mexico recently with the current Leaders of Canada and Mexico where I believe the subject was discussed. In any case, I have written the Obama Administration and my members of Congress expressing my opposition to such a merger. I hope you will as well.

NORTH SPIT DOCKS REMOVED FOR WINTER

NORTH BEND, Ore. – With fall and its accompanying storms here, the Bureau of Land Management (BLM) removed the docks from the water at the North Spit boat launch on Wednesday, October 28.

dry ground during the stormy season," said Bob Golden with the BLM. The docks will be re-installed in early spring 2010.

The other facilities at the North Spit boat launch will remain open throughout the year.
